Pedro Paulos

Full Stack Developer

ABOUT ME

I am a Junior Full Stack Developer with experience and knowledge in Javascript (ES6), CSS3, and MERN stack (MongoDB, ExpressJS, ReactJS & NodeJS).
Versatile and communicative, I am passionate about exploring my creativity and have a goal-oriented vision of work. I am looking for an organization that moves fast, and gives me time and resources to learn and grow, with a strong culture.

PROJECTS

Bingewatchr - link
Letterboxd is a big contender for cinema online crowdsourced critique. TV Shows can have and need a similar platform. Final project for my training at IronHack Bootcamp, created with another colleague.
Technologies used: **React, MongoDB, Javascript, Express JS, NodeJS, Bootstrap 5, HTML, CSS**

GastroGusto - link
A platform that allows for fans of Michelin starred restaurants to give their own star (or three) to a state-of-the-art restaurant. Made in duo collaboration training in IronHack Bootcamp.
Technologies used: **Handlebars, MongoDB, Javascript, Express JS, NodeJS, Bootstrap 5, HTML, CSS**

Metronome - link
A pattern matching music game made individually as the first project for the IronHack bootcamp.
Technologies used: **Javascript, Html & CSS**.
